

Foothill Entertainment and SphDigital Present

The Adventures of

Raz & Benny

3D

52 x 11' CGI Animated Series

What's more fun than a TINY mouse on a BIG mission?  
 How about TWO tiny mice on a BUNCH of big missions?!

3D

RAZ & BENNY is the ultimate buddy comedy with a healthy dose of dazzling hijinks and death-defying stunts. It is the tale of two, inseparable mice whose good luck is as endless as their friendship. Often inspired by their eccentric pal Lilly, dare-devil Raz and cautious Benny are always off on one adventure or another. Whether posing as international spies, high-speed racecar drivers, scuba-diving submarine rescuers or expert explorers in the deepest jungle, these unstoppable thrill-seekers consistently come out on top, ready for their next adventure!

Created by Simon Hodgkiss of SphDigital, UK and to be produced in stereoscopic 3D, Foothill is looking for co-production and pre-sale opportunities for this celebration of physical fun, choreographed chaos and visual delight!

A pilot episode storyboard is now available.

Worldwide rights are available for this 52 x 11' CGI animated series.
