Earth is under attack! Evil aliens are already here, slithering among us, and preparing the way for the rest of their slimy horde to invade Earth. These aliens come from different planets in all shapes and sizes imaginable, each weirder and more disgusting than the last.

Because these disgusting, nauseating, repulsive, hideous (well, you get the picture) creatures have the power to cloud adult minds, it is solely up to the kids of Earth to save the planet. Slime Rangers, a team of top secret international alien-fighting adolescents, led by Dylan, is all that stands between us and Slime-ageddon!

Slime rangers is a fun filled zany, wacky, character based comedy series that will appeal to boys and girls alike.
