Danny & the DINOgONS

When your dad is a Dinosaur and your mum is a Dragon, what do you get? Me! Danny Dinogon!! With pretty weird parents you'd think I'd be a mixed-up kid, right? Nope, not me! I LOVE being a Dinogon and my friends think it's kinda cool too. Do you know anyone who can burp smoke? And I fly around a lot.... literally! That makes me pretty special!! I haven't quite got the hang of fire breathing yet, but my Grandpa says it'll happen anytime soon if I keep practising. My Gran and Grandpa live with us along with some crazy aunts and uncles. And did I mention my brothers and sisters? There's a lot of them!! So, if YOU think growing up is tough... think again!

Danny & the Dinogons is about the not so normal life of Danny growing up in a blended, extended, mixed-up family of Dinosaurs and Dragons, living in a suburban neighbourhood.

With creative development led by seasoned UK and US network writers, this funny but enlightening romp speaks to the modern family into which kids are thrust today. We learn that kindness, understanding and familial love are the ties that bind.

Foothill, which is handling worldwide distribution, is seeking co-production partners and pre-sales for this 52 x 11' series to be produced in 3D CGI animation.
